PROFILE

Having grown up in the internet era, I have always had a personal interest in the ever-changing and innovative technology industry. My two years at SFU Engineering enabled me to understand the importance of practical skills over theoretical knowledge and led me to pursue a degree in web development. I hope to continue to nurture my interest in technology, build upon the programming skills, and am motivated to start a career in web development.

PROGRAM PROFICIENCY

HTML, CSS, JavaScript, C++, React
NodeJs, Express, MySQL,
Agile Development, GitHub
DOM API, User Authentication
OAuth, Heroku, Jest,
Styled Components, TypeScript,
ViteJs
